With this **special mexican edition**, LPM moves over the ocean for its first time to meet that broad part of **south-american community**, who has always followed the Meeting and the **FLxER community** since its first initiatives.

On **4th** and **5th september**, the **Escuela Gestalt de Diseño** of **Xalapa** hosts a full schedule of **workshops/showcases** of projects, softwares and cutting edge products, **audio visual performances**, **multimedia live shows** and **vjsets** open to the audience.

The **workshops** and the **showcases** will take place in the **Classroom of the Escuela** (“OFF” Area). The **performances** come one after the other in the **Auditorium** (“ON” Area), on the **Stage 1** set up with 3 mega-screens, and keep on

in the suggestive open-air space in the **Terrace**, set up too with an independent video system and three mega-screens.

The **MUTYE - Museo del Transporte y Exposiciones di Xalapa** will host on **6th september** the closing night of the event. At the end of the performances will start the **DJ sets** that will create the sonic texture for the **Vj clash**, non competitive challenge among the visuals of the many vjs attending to the Meeting.

LPM represents a **place of "real" encounter**, a **"physical"space**, a direct chance of **dialogue** and **comparison** for **artists and passionate of arts** and digital technologies who usually meet, communicate and interact in the "virtual" space of the net.

The **experimentation** is one of the founding element of LPM ideology, for this reason all the **funds saved** from the Meeting are invested in the **most innovative technologies** to support the Event and to enhance the **research activity** in the **live visual** field.

Last year LPM took part in the **AVITNetwork**, sharing the same ideologies and roots. The activity of AVIT is focused on the enhancement and promotion of **veejaying culture**, through the organization of worldwide events. After the first english festivals, AVIT promoted the creation of an **international network**, establishing collaborations in Germany (**AVIT Berlin**), in France (**AVIT France**) and also in Italy with **LPM**. This **partnership** between "network" and "meeting" has been possible thanks to the common cultural background and to a strong affinity in intents and spirit.

LPM is not a festival, but it is a chance to get in touch with artists from all over the world and to showcase your own project or, even better, a work in progress. Our aim is to give the right space to all the performances, that's why each intervention should take not more than **30 minutes**.

For the **performers/exhibitors** who want to present their **work, project** or **performance** during the Meeting the subscription is **FREE** and it's open until **30th July 2008**. Besides is foreseen the possibility of free **accommodation** for the **performing artists**.

For the **visitors** who want to access to all the activities of the Meeting: workshops and showcases (4th and 5th sept.) and/or participate to the final Party (6th Sept.) the **subscription foresees a fee**.
